Pens

# Surface Slim Pen

Write, sketch, recharge, repeat

## Pitch

New, rechargeable Surface Slim Pen with a thin, new profile delivers a natural writing and drawing experience, with virtually no lag or latency. Tilt support lets you shade your sketches just like you would with a graphite pencil. Surface Slim Pen also delivers exceptional artistic precision — with 4,096 pressure points that respond to the lightest touch.<sup>1</sup>

## Top Reasons to Buy

- **Create Intuitively** - Write and draw with precision ink on one end and an eraser on the other. Easy to hold and control, tilt thin, light Surface Slim Pen to shade your sketches.
- **Writes like pen on paper**, with precision inking tip on one end that enables tilt<sup>1</sup> and an eraser on the other.
- **Sketch, shade, and paint with artistic precision** and exceptional control with 4,096 pressure points that respond to the lightest touch.
- **Ink flows out in real time with virtually no lag or latency.** No matter how fast you're writing or drawing, the ink flows directly from the tip of Surface Slim Pen to your screen.
- **Now rechargeable** - New Surface Slim Pen is rechargeable and comes with its own easy-to-carry charging base that connects via USB-C®, so you'll always be ready the moment inspiration strikes.
